## **BWL to Repair Pavement at W. Saginaw and Chestnut Streets**

The Lansing Board of Water & Light (BWL) is scheduled to begin restoration of the pavement at the intersection of W. Saginaw St. and Chestnut St. beginning Monday, August 24 through Monday, August 31. The pavement restoration is required due to water main repair work that was completed at this location earlier this year.

Traffic along W. Saginaw St. will be reduced down to one lane and there will be no access to Chestnut St. from Saginaw St. Residents on Chestnut St. north of W. Saginaw St. are advised to use W. Oakland Ave. for access to Chestnut St.

Customers in the affected area can call (517) 702-6490 with questions or concerns.
